

Option (K) Custom Design Features

Your equipment is one-of-a kind, so Haskris provides chiller solutions tailor-made for your application. We eliminate downtime by matching the chiller design to the unique requirements of your equipment and the installation site. Option K designates any custom feature you want built into your Haskris chiller.

Our specialty since 1944 continues as our hallmark today.

Examples

- Special certifications (SEMI S2, CE, UL, CSA, OSHPD)
- Custom unit dimensions
- Custom connections (size, type, location)
- Special materials (stainless steel, PVC, nickel plated, aluminum)
- Installation kits
- Universal electrical (50/60Hz)
- Split systems
- Back-up pumping systems
- Redundant refrigeration systems
- Backflow prevention
- Automatic city water backup
- Specialty pumping systems
- Custom controls and displays
- Custom communications
- Auto refill
- Fluorinert chillers
- Oil compatible chillers
- De-ionization
- De-oxygenation
- Built-in piping manifolds
- Reverse air flow
- Washdown enclosures
- Extreme environment
- Sealed systems
- Vibration isolation
